Statement Corona Virus – Covid 19

Dear valued customers and partners

The current Corona Virus disease is an unpredictable situation that has an enormous impact on everyone's daily collaboration.

We would like to inform you that Teximp has stopped respectively reduced its activities in sales, technology and field service to the minimum at that moment.

We will watch the actual situation carefully and will decide to restart our business as soon as the conditions are back to reality.

We have taken the necessary measures for the protection of our employees. Nevertheless we are always available for you.

Thank you for the comprehension and please do not hesitate to contact us for any further information.
