TORNOS

Thank you
for your loyalty
Happy birthday!

*This year is the DECO 10's
25th anniversary and we have
a surprise for you!*

DECO 10 Plus

Get your
DECO 10 ready
for a new life

Before

After

Get your DECO 10 ready for a new life

- Choose the DECO 10 Plus as your fast-track ticket to the fastest and highest quality overhaul of the market.
- Extend the service life of your machine and improve its productivity thanks to our specialists' renowned experience.
- Machine with quality that only original Tornos spare parts are used and benefit from our one-year warranty!

Configure your DECO 10 Plus

Discover our virtually unlimited range of affordable options for increasing the capacity of your DECO 10 Plus.

Enter the world of Industry 4.0

- Your DECO 10 Plus can easily handle TB-DECO programs from a standard DECO 10. The new CNC is equipped with a USB slot to load the program, a color display for better readability, and a new keyboard with a handle to accelerate your operation on the machine.
- A connectivity pack can be added to monitor the machine's production and allow it to interface with the most modern platform or protocols (umati, OPC UA, etc.).
- Tornos' available TISIS ISO programming solution allows you to program your DECO 10 Plus without the help of TB-DECO.

Chips with ACB Plus

Chips without ACB Plus

Secure your production

Gain precious autonomy on your DECO 10 Plus with Tornos' brand-new Active Chip Breaker (ACB) Plus software (optional) and its advanced functionalities.

Welcome to your DECO 10 Plus!

More than a certified refurbishment

We take your DECO 10 to our factory, completely refurbish it, test it, and then ship it back to you. But it's more than a certified refurbishment. We actually upgrade your DECO with the latest-generation FANUC computer numerical control (CNC)—and that's a big plus! Welcome to your DECO 10 Plus!

Your benefits at a glance

FACTORY
REFURBISHED
MODERNIZED
UPGRADED

Your DECO 10 will remain an original DECO 10 through the complete and expert Tornos refurbishment. Your **machine's geometry and the precision** will be equivalent to its original condition

Availability of spare parts to guarantee another **25 years of performance**

Faster program transfers thanks to the latest-generation **FANUC CNC with USB connectivity** and Industry 4.0 readiness

No need for additional investments in new equipment, tooling, or training for operators

Reduced maintenance thanks to the newly added automatic central lubrication

Access to success-enabling options like our TISIS ISO programming solution, Active Chip Breaker Plus (ACB Plus) software, maintenance contract, and connected services

Better lighting as well as **improved ergonomics** thanks to a pivot arm and new keyboard

No surprise Factory warranty, CE conformity

Make sure your
Tornos remains
a Tornos
